5.0 Stellenwerk Homepage

5.1.1 Filter jobs

As a user, I will be able to sign into the Stellenwerk platform. To do this, I will

- Go to Stellenwerk.ch
- View all the job post
- Search the jobs
- Use the filters to sort out the jobs
- I will use following filter criteria to sort out the job list;
  - JobType
  - Workplace (Arbeitsort)
  - Function Group
  - Function à should only be available, when a Function Group is selected (the same logic as we have in our Matching-Tool)
  - Workload
  - Karriere-Level

5.1.2 Sign up as a candidate

As a user, I will be able to sign into the Stellenwerk Platform. To do this, I will -

- Click on my desire job
- Go to job details page
- Click on terms and conditions
- I will see two option
  - Login with Linkedin
  - Login with Basic Information
- If I Click on sign in with Linkedin option
- I will be landed on the basic information page
- The basic information will be extracted from my Likedin profile. For an example
  - First Name
  - Last Name
  - Email
  - Phone Number
  - Rest of the information will be filled by user
- If I will click on sign up with basic information
  - I will be landed on the basic information page

- fill up following information;
